Non-Contact Voltage Detector with LED Light

- Beep sound and red LED indicate AC voltage presence
- Bright white LED light integrated into the tip
- Auto check function for battery and internal circuit
- Dual sensitivity

Voltage detection:
Tip glows red and buzzer sounds when voltage is detected.
The simplest way to know if voltage is present!
For inquiries or orders:

KEW 5711-1E June 17 AD

Safety Warnings:

Please read the "Safety Warnings" in the instruction manual supplied with the instrument thoroughly and completely for correct use. Failure to follow the safety rules can cause fire, trouble, electrical shock, etc. Therefore, make sure to operate the instrument on a correct power supply and voltage rating marked on each instrument.

KEW 5711 Specifications

<table>
<thead>
<tr>
<th>Feature</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Operating voltage</td>
<td>AC 90-1000 V (Lo sensitivity)</td>
</tr>
<tr>
<td></td>
<td>AC 20-1000 V (Hi sensitivity)</td>
</tr>
<tr>
<td>Frequency range</td>
<td>50/60Hz</td>
</tr>
<tr>
<td>Operating temp.</td>
<td>-10 to 50°C</td>
</tr>
<tr>
<td>Storage temp.</td>
<td>-20 to 60°C</td>
</tr>
<tr>
<td>Safety Standard</td>
<td>IEC 61010-1 CAT IV 600V /CAT III 1000V</td>
</tr>
<tr>
<td>Power source</td>
<td>R03/LR03 (AAA) (1.5V) x 2</td>
</tr>
<tr>
<td>Low battery warning</td>
<td>Glow tip quickly flashes in red five times.</td>
</tr>
<tr>
<td>Dimension</td>
<td>153(L) x 20mm</td>
</tr>
<tr>
<td>Weight</td>
<td>Approx. 40g (including batteries)</td>
</tr>
<tr>
<td>Accessories</td>
<td>LR03(AAA) x 2, Instruction manual</td>
</tr>
</tbody>
</table>

Dual sensitivity

Low(Lo) sensitivity helps to recognise the Phase from Neutral in sockets.
High(Hi) sensitivity for checking the presence of voltage from a further distance.

Detector tip
Short press: LED Light ON/ OFF
Long press: Switches sensitivity

High(Hi) sensitivity may be useful for locating wires behind walls.

Powerful flashlight

KEW 5711 always ON = ready to use. This is a big safety advantage because you do not have to remember to switch it ON and it always indicates the dangerous presence of voltage.

Ready to use without power-on

KEW 5711 is always ON – ready to use. This is a big safety advantage because you do not have to remember to switch it ON and it always indicates the dangerous presence of voltage.
Always ON does not affect the battery duration because it uses a special low power circuit. Battery life > 1 year (standby).

Self-Function test

KEW 5711 performs self-function test when button is pressed. When abnormality is found at the test, it gives 3 short beeps, 3 long beeps, 3 short beeps (Morse code for SOS); the abnormality may be either temporary or permanent.
